

## Abba Father's House

Charity Registration Number 1209857

This March 2026 Marks Our 20th Anniversary!

Dear partners and friends,

We're excited to share our success of 20 years. It was March 2006 when our vision became a reality, and we started caring for orphans and also supporting widows in Jinja Uganda. A lot has happened in the last 20 years, some of our supporters have retired, whilst others are looking to retire but we're ever so grateful for your gracious support through good and challenging times.

We started with one house for all of the children, but with your help, we expanded and constructed another building that facilitated separation of children in order to comply with Government requirements for girls to live separately from boys. Within the 20 years, we progressed to creating income-generating projects such as cows, pigs, and chickens, and we now generate our own gas for cooking and solar panels for lighting, which have helped us to cut down on electricity and charcoal and firewood costs. We also installed security cameras to add to the home security as well.

The children we started with have now completed their education, some with degrees, others with diplomas, and they are working and now fending themselves. Some of them have kept in touch and even made donations whenever possible. What a privilege to be part of their journey?

The home also moved from being a Community Based charity to becoming an NGO (Non-Governmental Organisation) hence we are recognized nationally and internationally as most of our funders are from outside of Uganda. We're networking with the local charities, which helps us to share good practice.

# Esubi (Hope)

The joy to celebrate touching many lives on God's behalf is tangible, and we're so thankful for every one of you and for all who have done in kind, fundraising, prayers, and practical work.

As expected the 20 years of operation has led to the retirement of those who sponsored us from 2006 and left the charity with gaps that need filling with younger people to maintain the work and to take AFH to the next level which according to the vision God gave Juliet to build a business centre where our younger people and those from the local community can acquire skills in business studies and to expand to various regions.

We're appealing to whoever reads this Anniversary news to come aboard and support the work so that together we have the reward of putting a smile on disadvantaged children and supporting widows as well.

Please check us out on our website [www.abbafathershouse.org/help/regular-giving](http://www.abbafathershouse.org/help/regular-giving) to find out what you can do to join with us at AFH to give "Hope for Tomorrow"

We appreciate you joining us to celebrate our success and for your amazing support.
